

2 Day Intensive Course

Emerging Epigenetics: Detecting & Modifying Epigenetic Marks

12-13 March 2018
Homerton College, Cambridge, UK

On this course you will: get to grips with the latest tools and technology for reading and decoding the epigenome, gain an appreciation of bioinformatics approaches for analysing epigenetic datasets, and be introduced to CRISPR mediated epigenome editing and its potential applications.

Instructors:

Prof. Pengtao Liu
School of Biomedical Sciences Faculty
of Medicine, University of Hong Kong

Prof. Skirmantas Kriaucionis
University of Oxford

Prof. Richard Meehan
University of Edinburgh

Dr Clara Novo
Babraham Institute

Dr Irene Herraiz
Babraham Institute

Dr Gabriele Schweikert
University of Edinburgh

Dr Moyra Lawrence
University of Cambridge

Registration:

Visit us: www.cambioscience.com
Enquiries: courses@cambioscience.com

Early registration end:
25th February 2018

Registration closes:
27th April 2017

Free Membership: 10% OFF
