

Virtual and Live 4-Day Intensive Course
ORGANOIDS: INTESTINE AND CEREBRAL
9-10 & 13-14 SEPTEMBER 2021

Powered by:  **OBRIZUM®**

COURSE INSTRUCTORS

Dr Bon-Kyoung Koo

Principal Investigator
IMBA, Vienna

Dr Jens Puschhof

Postdoc (Clevers Lab)
Hubrecht Institute, Utrecht

Miss Maria Heinz

PhD Student (Snippert Lab)
UMC Utrecht

Professor Ki-Jun Yoon

Principal Investigator
KAIST, Daejeon

Miss Catarina Martins Costa

PhD Student (Knoblich Lab)
IMBA, Vienna

PROGRAMME

Theoretical Lectures

Learn all the background and theory you need to best design your organoid experiments.

Interactive Practical Sessions

Learn the proven workflows for establishing and maintaining cerebral or intestinal organoid cultures.

Learn useful tips & tricks from the experts!

Q&A Clinics

Don't leave any question unanswered: in a small group with the experts address your own project challenges.

On-Demand Content

Have access to the course materials from the live sessions as well as exclusive materials after the course through the OBRIZUM AI-learning platform.
